EXPERIENCE THE POWER OF CLARITY WITH OUR NEW OZ4-HD CAMERA

- Robust design to withstand harsh conditions, ensuring durability and reliability.
- Upgrade your current fleet to use a 1080p high-definition pan & tilt mainline camera.
- OZ4-HD is backwards compatible with an HD Truck Upgrade to work with your existing K2 controls, transporters, cable, and reels.
- Seamlessly switch between standard definition and high-definition cameras without workflow interruptions.
- CUES's GraniteNet Software offers robust support for HD video, ensuring seamless integration and optimal performance when using the OZ4-HD Camera.
- Compatible with industry standards, such as NASSCO's Pipeline Assessment Certification Program (PACP).

VACTOR
iMFACT

Combination Sewer Cleaner

BIG CLEAN. IntuiTouch® IN A COMPACT PACKAGE.

When there's a dirty job to be done, trust the iMFACT sewer cleaner to do it without washing quality and safety down the drain. Don't let its compact size fool you. The iMFACT packs a wicked punch with features like:

- **IntuiTouch®** controls for precision, comfort and safety
- **Non-CDL** configurations available
- Safety interlocks, non-destructive e-stops and boom and debris body alarms
- Performance-driven options and upgrades available
- Backed by service excellence and the support of the industries strongest dealer network.

DANIELLA LEVINE CAVA
MAYOR
MIAMI-DADE COUNTY

August 22, 2024

Dear friends,

As Mayor of Miami-Dade County and on behalf our nearly 3 million residents, it is my pleasure to welcome you to the 13th edition of The Water Expo and the 6th edition of The Energy Expo! We proudly welcome more than 150 exhibitors, 80 educational sessions, and 2,000 delegates from 40 countries across Latin America, the Caribbean, and the U.S to advance water and energy solutions.

As mayor of a county nestled between two watery national parks, Biscayne Bay and the Everglades, I am deeply passionate about the protection of our clean water. The Everglades is a precious World Heritage Site and the main source of drinking water for our community, and Biscayne Bay is a hub for water recreation, home to many species of plants and animals, and the blue heart of our community. Miami-Dade County continues to make multi-billion-dollar investments to improve our water and sewer infrastructure so that future generations can enjoy high-quality drinking water and reliable wastewater disposal services, while protecting our natural resources.

My administration launched an aggressive Climate Action Strategy that sets a goal to cut carbon emissions by 50% by 2030. We also joined the International "Race to Zero" to reach net-zero by 2050. Our County has committed to achieving 30% renewable energy within the next 8 years and we are aggressively going solar on county property. Innovation in green technology is happening every day in Miami-Dade – and we look forward to helping environmentally-minded businesses grow right here in our county.

Since my days as a County Commissioner and now as County Mayor, I have been proud to support the Water and Energy Expos – from participating as a panelist to working to advance water conservation and energy innovation from county hall. I wish all organizers, participants, and attendees' great success, and I'm looking forward to welcoming you back next year!

Yours in service,

A handwritten signature in cursive script that reads "Daniella Levine Cava".

Daniella Levine Cava
Mayor, Miami-Dade County

KEYNOTE & OPENING SESSION

Wednesday, August 21, 2024, 8:00 am , MACC Room 1 - Mezzanine

MASTER CLASS:

Bringing Current Advancements in PROJECT, PROGRAM, and PORTFOLIO MANAGEMENT to Optimize and Enhance Efficiency and Revenue in the Water and Energy Industries via application of Major Tools and New Delivery Developments

by **Daniel A. Huard**, LEED Fellow, WELL Faculty, WELL AP PMP, CSO, MDH Evolution (NV)

This Master Class will focus on utilizing recent improvements, tools, delivery methodology and feedback to benefit a multitude of aspects for your organizations, facilities and personal abilities. This session will help participants to embrace and utilize our Tools and Methodologies to align with Project, Program and Portfolio Management Global Mega trends. We will review the applicability of Artificial Intelligence, further management of Resources, tools for increased Forecasting and decision-making ability, Incorporating Data Analytics, and as well the development of Soft Skills

Mr. Huard the 'Godfather of Sustainability' has long been a globally sought-after Green Building expert has earned degrees in Mechanical Engineering, Architecture, and Urban Planning is currently the Global Vice President of the LEED Fellows Selection Board, and as well holds another dozen professional designations including Project Management Professional, is an ASHRAE Commissioning Professional, an Association of Energy Engineers Energy Manager and as well has helped author the three most recent version of the LEED Rating Systems. Daniel's professional expertise has contributed to numerous domestic and international High-Performance Building, Sustainable and Restorative Development projects.

THE NEXT GENERATION FLEXIBLE SHAFT MACHINE

Flexi-Rooter®

General has rethought high-speed, flexible shaft machines. The stronger, stiffer shaft lets you clean a wider range of drain lines, up to 75 feet long. It's flexible enough to negotiate 2" lines yet tough enough to clear roots in 4" lines.

SPECIAL ACCREDITED COURSES

SPECIAL WATER COURSES (ENGLISH) Aug. 21st, 1-5 pm

“RELIABLE DATA = SMART DECISIONS: STRATEGIES FOR BETTER SEWER PIPELINE INFORMATION MANAGEMENT”.

(0.4 CEU credits & Certificate of Participation released by The University of Texas at Arlington – UTA).

This course is geared to the United States market and designed for engineers (PE), contractors, and professionals involved in the design, operation and management of wastewater and stormwater pipelines.

Presented by

DIEGO CALDERON,

PE, NASSCO Certified PACP™, Municipal Engineer and Consultant; Board member of the Latin American Society for Trenchless Technology (LAMSTT)

Diego is a certified professional engineer with over 17 years of experience, 15 of them dedicated to trenchless technology. He has been a university professor, academic researcher, municipal engineer, project manager, project engineer and field engineer. His knowledge derives from experience in the U.S. and abroad. He is currently a Ph.D. Candidate at the University of Texas at Arlington, as well as a municipal engineer. Diego serves as a board member of the Latin American Society for Trenchless Technology (LAMSTT) and is a certified PACP/MACP/LACP NASSCO Trainer.

SPECIAL WATER COURSES (ESPAÑOL) Aug. 22nd, 8am to 12:00 pm

“DATOS CONFIABLES = DECISIONES INTELIGENTES: ESTRATEGIAS PARA LA GESTIÓN DE INFORMACIÓN DE REDES DE ALCANTARILLADO”.

(0.4 CEU créditos & Certificado de Participación avalados por The University of Texas at Arlington – UTA).

Presented by

ING. SMITH RANGEL,

M. Eng., NASSCO Certified PACP™, BAMI-I Director of Board and Consultant.

Este curso está dirigido al mercado de América Latina y el Caribe y diseñado para ingenieros, contratistas y profesionales que trabajan en el diseño, operación y mantenimiento de redes de tuberías en el sector del alcantarillado pluvial y sanitario.

Ingeniera Civil – UIS, Bucaramanga, Colombia – con Magister en Ingeniería de la Universidad de Maryland, College Park, EE. UU. Gerenció proyectos en el condado de Baltimore, USA y ha liderado proyectos de rehabilitación de redes con tecnologías sin zanja por más de 100 millones de dólares.

Como Instructora de la Asociación Norteamericana de Compañías de Servicios de Alcantarillado (NASSCO) ha capacitado a profesionales para varios países Latinoamericanos entre los cuales están Colombia, Panamá, Uruguay, Brasil, Chile, Ecuador, Venezuela, Perú, Argentina y Costa Rica. También es instructora del Instituto Internacional de Gestión de Activos Subterráneos (BAMI-I) para el curso de Certificación en Gestión de Activos en los Estados Unidos. Fue becario por el gobierno de China en el “Belt and Road” para el cambio climático. Actualmente es consultora independiente en tecnología sin zanja y docente en los programas de posgrados de Ingeniería Civil de la Pontificia Universidad Javeriana de Bogotá

OSPREY
INSTRUMENTS

Creating a new future of value with diamond electrodes

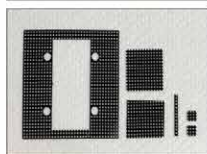

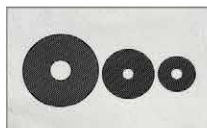

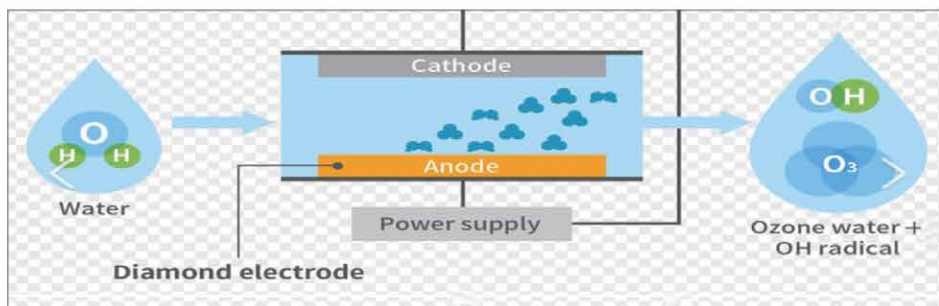

Contributing to environmental preservation with ozone water
that can safely kill viruses and sterilize.

Core Module for Electrolytic Ozone Water Generation Electrolytic Diamond Water Generator

Advantages

- 1) Compact Size (1/10 of existing unit)
- 2) Simple data management and remote control
- 3) Elimination of mixing unit of O₂ and Ozone generator
- 4) 4 times efficiency in killing of bacteria than ozonated gas
- 5) Safety in use due to minimal wasted ozone
- 6) Low running cost due to low electrical consumption

ESA

Electrical Signature Analysis

ELECTRICAL SIGNATURE ANALYSIS IS A CONDITION MONITORING TECHNIQUE THAT UTILIZES A MOTOR'S UNIQUE ONLINE CURRENT SIGNATURE TO DETECT FAULTS. ESA ANALYSES ELECTRICAL INDUCTION MOTORS, GENERATORS, POWER TRANSFORMERS, AND OTHER ELECTRIC EQUIPMENT.

BENEFITS OF CONTINUOUS MONITORING:

- Early detection saves money
- Lower costs compared to third-party services
- Fewer forced outages from equipment failures
- Automated data collection
- Plants have remote access to data
- Integrates into InsightCM™ making analytics easier

MONITORS AND DETECTS FAULTS:

- Cracked/Broken Rotor Bar Damage
- Air Gap Irregularities
- Abnormal Rotor Dynamics
- Bearing Faults
- Driven Equipment Faults
- Power Quality
